Duties and

Responsibilities:

Under the direction and supervision of the Clinical Business Lead, this position is an Associate Governmental Program Analyst, which is the medical reimbursement Subject Matter Expert (SME) for the Enterprise-wide Veterans Homes Information Systems (Ew-VHIS) Project. Duties performed are at the expert level and are accountable for complex technical analytical work assignments. Incumbent is expected to demonstrate a high level of knowledge related to methods and principles of medical billing and reimbursement policy with its related Federal, State, and Joint Commission on Accreditation of Healthcare Organizations (JCAHO) requirements in performing duties that will include, but are not limited to, the following:

- Conduct and document business process assessments
- Analyze and assess existing business systems, processes, procedures, and functional requirements
- Develop future process design for long-term care and acute levels of care
- Work with staff to obtain program, interface, form, and report specifications
- Plan, design, prepare and coordinate Ew-VHIS application training to all system users
- Participate in system implementation and data conversion processes
- Collaborate with healthcare disciplinary teams as well as integrators and information services
- Ability to travel

Desirable Qualifications:

- Excellent organizational, analytical, and interpersonal skills
- High degree of initiative and ability to work independently, as well as in a team environment
- Experience in or knowledge of systems development and implementation
- Ability to learn data processing and system-oriented concepts and language
- Ability to adjust to changing work assignments and priorities
- Goal oriented, conscious of timelines and due dates
- Excellent communication skills
- Experience with personal computers and Microsoft Office Suite

Reasons to apply for/accept a position with the Ew-VHIS Project Team:

- You will have a unique opportunity to participate in a business-critical project learning new technology that will improve the care quality for Veterans living at all CDVA Veterans Homes
- You will work closely with dedicated professionals while adding major project implementation skills to your work experience
- You will gain valuable, cutting edge IT competencies and acquire experience that will be marketable statewide
